STRIPE HOG® COMPATIBLE

ULTRA QUALITY SYSTEMS & SPARES

B 3/8-24 Style - High Cohesive® Style Replacement

2808 Series

The most commonly used sapphire nozzle in the world, the 3/8-24 sapphire nozzle is versatile and high performing.

Designed with an internal cavity that allows for a better, less turbulent stream of water, the Bingham style 3/8-24 sets the benchmark in performance and durability. All pieces are heat-treated for additional hardness and come with a laser-etch of the sapphire size. Compatible with Stripe-Hog™ Systems

DESCRIPTION	SAPPHIRE	PSI RATING	HEAT TREATED	BINGHAM #
3/8-24 Sapphire Nozzle	.004-.043 in 0.1-1.1 mm	55,000 PSI 3,800 BAR	Yes	2808 Series

B Hose Connectors

High quality, hardened hose connectors from Bingham Industries hold up longer than the competition.

Always subject to the best machining practices, even on something as simple as a hose fitting, we make sure to deliver the best possible product every time. Our fittings are made of the highest quality PH grade stainless steel and are never die-cut. As a result, our threads last longer than other manufacturers

ULTRA QUALITY SYSTEMS & SPARES

Features

Advanced Design

Minor design and component improvements across the cartridge product line have resulted in major performance and life span improvements while still allowing Bingham Industries to reduce our price point below other manufacturers.

Manufacturing Performance
High quality manufacturing practices lead to longer product life

Improved O-Ring Quality
UHP rated o-rings for longer life and better sealing capacity

Better internal seal life
Improved sealing technology inside the cartridge body provide for longer life

TERMS & CONDITIONS

ULTRA QUALITY SYSTEMS & SPARES

Bingham Industries Warranty

Limited Warranty

All products manufactured by Bingham Industries are free from material defects and workmanship for the life of the product, provided it is used in a normal and reasonable manner and in accordance with all operating instructions. All products sold by Bingham Industries that are manufactured by another entity will include the original manufacturers warranty but will not provide any additional product warranty.

Exclusive Remedy

Should any warranty product fail during the warranty period, Bingham Industries may conduct an examination that discloses, in Bingham Industries sole judgement, whether the item in is question is defective in material and/or factory workmanship. At the conclusion of the examination, Bingham Industries may elect to repair or replace the defective product at Bingham Industries sole discretion. Repairs or replacements are to occur at a Bingham Industries facility or customer workshop approved and authorized by Bingham Industries. Labor is furnished only when the product or item in question is returned to a Bingham Industries facility or when travel and expenses are paid by the purchaser. Freight, travel and expenses incurred in connection with repair or warranty are excluded from this warranty and shall be paid by the purchaser.
